Bed Bug Preparations

In order for our company to provide the best possible service, we ask that you make a few simple preparations before we arrive. The following preparations are minimal, but they are critical to the success of the program. We will make you aware if cooperation above & beyond what is listed here is needed.

- Remove all bedding from all beds in the home, regardless of whether the room has bed bugs in it or not. Place the bedding in trash bags & secure the tops of the bags till the linens can be washed &/or dried on high heat for at least 30 minutes.
- Remove all clothes from all dressers, nightstands, on the floor or in baskets, & place them in trash bags. Secure the tops of the bags till the clothes can be washed &/or dried on high heat for at least 30 minutes.
- Remove any items from the dressers, headboards, & nightstands. Place them in trash bags separate from the bags that have washable items in them.
- Place all pillows in trash bags so they may be ran through the dryer when the service is complete.
- Remove any valuables from the area that is to be treated.
- Vacuum all floors & clean any trash or clutter from the floors.
- Remove any pictures or art from the walls & place them on the floor leaning up against the wall.
- Remove all curtains or cloth decorations & place them in trash bags so they may be washed or dry cleaned.
- Place any children's toys into trash bags & secure.
- Make sure that there are no items on top of or under the bed before, during, or after the service & that these items remain away from the bed until the home has been declared bed bug free.

- If you are having an infestation in any room in your home, the above steps need to be taken for all areas. It is in the best interest for the treatment process if the home is very well organized & the only items in the room during the treatment are the furniture & the bed.

After Our Treatment Is Complete:

- If items in bags have not been laundered, please launder all the items in the trash bags that can be laundered, wash items in hot water &/or dry on high heat as soon as possible, or have them dry cleaned as needed.
- Items in the trash bags that cannot be laundered need to be left in the secured bags for 1 week with Nuvan Strips or until our technician notifies you that it is okay to return items.

☐ I have read the instructions and will comply with the above instructions to the best of my ability.
